## Management Fees

- Care Management Fees**

Care management supports your safety, health, and wellbeing by ensuring your services are well-coordinated and meet your goals. It includes developing and reviewing care plans, coordinating services, monitoring changes, managing risks, and supporting informed decisions. Activities may involve communication with you, carers, and other professionals, reviewing budgets, and promoting independence and reablement.

A **10% portion of your Support at Home funding** covers these essential care management activities. This ensures your care remains safe, effective, and aligned with your needs over time.

- Self-Management Overhead Fee**

When you choose to self-manage and directly arrange your own services — such as **taxi transport, Chinese medicine & acupuncture, cleaning, or gardening** — a **10% self-management overhead fee** will apply. This small fee helps cover the behind-the-scenes work we do to keep your services safe and compliant, including **verifying workers, managing payments, and meeting Support at Home Program requirements**.

The 10% overhead fee will be deducted from your Support at Home funding as part of the total service cost.
